

# Recording Release Form

The Ottawa Travellers is happy to allow teams to record their games by use of a GoPro camera or any other recording device. It is not permitted to mount the camera on your equipment. The camera must be mounted on the glass by a suction cup (no tape). However before the game begins, both teams as well as all on and off ice officials must agree to recording the game. If an agreement is not made, the GoPro camera or any other recording device will not be permitted. Also if a team requests that the camera be removed during a game, it must be taken down.

**If a game is recorded, the video may not be used for the following:**

- **Reflect negatively on the league**
- **Challenge Ottawa Travellers On and Off ice staff**
- **Embarrass players from either team**

***\*If a team is caught going against these guidelines, a \$75 fine may be applicable.***

Recording the game should be fun and we are looking to keep it this way. With that being said, if a situation occurs during the game and the league requests the footage, we ask that you share the footage with us.

By signing below, you are acknowledging the aforementioned agreement and stipulations on behalf of your team.
